

Name	Structure	CAS No.	Remark
gamma-Valerolactone	 <p>The image shows the chemical structure of gamma-Valerolactone, which is a five-membered ring containing one oxygen atom and one carbonyl group. The ring is drawn in a perspective view, with the oxygen atom at the bottom and the carbonyl group on the left side. The right side of the ring has a methyl group attached to the carbon atom.</p>	108-29-2	R&D
