

Name	Structure	CAS No.
Dimethyl 1,4-cyclohexanedicarbox ylate	 <p>The image shows the chemical structure of dimethyl 1,4-cyclohexanedicarboxylate. It consists of a central cyclohexane ring with two methyl ester groups (-COOCH3) attached at the 1 and 4 positions. The methyl groups are represented by short horizontal lines extending from the oxygen atoms.</p>	94-60-0
